Welcome to our nest!

Preschool Programs:

(School Year Calendar Progression: Beginning September)

We believe in educating the whole child, and providing experiences for all children to feel academically, emotionally, and socially prepared for Kindergarten and their schooling journey. Our preschoolers learn through play and direct teaching, and within this approach, each child can experience a fun, engaging environment where learning is a hoot!

The Knowledge Nest provides learning workshops that bring into service local district approved curriculums, including Zoo-phonics and Learning without Tears. Our routines and academics provide students with experience and understanding of school structures, while navigating peer dynamics, and a collaborative learning environment.
